

# 4D + Vaginal 2 in 1

## 4D HIFU ADVANTAGES

**4D HIFU** one press=12lines

10,000 shots for each probe

Traditional HIFU

A press 1 line  
A step 1mm width

VS

## Triple effect | protect youth

### Lift and tighten

High-energy focused ultrasound stimulates the skin's natural regeneration and repair response, tightens the subcutaneous fascia layer, and tightens the skin.

### remove wrinkles

The heat generated by the ultrasound reaches the fascia layer, stimulates collagen regeneration, promotes skin firmness and improves elasticity.

### reshape contour

The heat generated by the ultrasound can lift and tighten the skin, which can modify the facial contour and make the face more compact and three-dimensional.

## Private multi-effect repair care

### shrink vagina

Fast tightening, lasting tightening and narrowing, firmness increased by 60%

### Improve vaginal appearance color

Lighten pigment, beautify the appearance of labia, and increase the pinkness by 70%

### Moisturize the pussy

Eliminate dryness, improve secretion, and increase lubricity by 80%

### Restoration of Yin

It has a restoring effect on pelvic tissues and blood vessels, repairs damaged and aging cells, remodels collagen elastic fiber network, and increases youthfulness by 80%

### protective effect
